Customer Reviews

A whole chunk of the pages fell out when I opened it and no matter what I do I can't keep more from tearing out the farther I read into the book. It's not super annoying, but it would be nice to have gotten a book that was all in one piece.

Very informative, easy reading, and corresponding well with course lectures. All in all, very thorough.

Missing pages, which caused a major inconvenience, which affected my grade.

Didn't use it all that much, seemed a little repetitive throughout.

Interesting book, I took that class as a gen ed in college

Very easy to read! Glad my professor is using this book

A large section of the book's pages are completely detached from the binding. But despite this chunk of loose pages, the book is in decent condition.

Good quality for a rental
