Customer Reviews

If you want to start selling on eBay get this book. The author tells it like it is the good, the bad and the ugly. It says it like it is. He also that's your by the hand and walks you through each step. Personally as I was in the middle of the book I began looking around my house and realized I have a lot of stuff I would love to sell. That yard sale I have been planning on having for a year now - well it is not happening. Nick gives you the tools to make the sale, use the tools and advice he gives you. He gives you ideas where to get more stuff to sell. His advise is to give it a try to see if it's for you. It may not be your thing but if you don't try you won't know you just may be hooked. There where some surprising ideas in the book of where and what he sells. He also has a video you just have to watch, it will start you thinking of just what you can do with eBay. I'm ready to give it a go. Buy the

book and give it a try you may find a new life and a new lifestyle.

I've been talking about selling on eBay for at least 5 years or more. I have gotten many lengthy books on how to sell on eBay and never took action. When I came across this bundle series, I thought I'd read one more thing about selling on eBay. Mr Vulich's book is the only thing that made me take action to start selling on eBay! He states 'it's fear that keeps a lot of people from even trying to sell on eBay' and '... Let's face it if you're like most people, you've already got a full time job and don't have a whole lot of time to read ... to find a few gems you need to get started.' This IS ME - fearful and not a lot of time. Because of this clear concise bundle, I developed the courage and needed knowledge to post my first item on eBay last night and already have 8 watchers less than 24 hours later! Mr Vulich's book truly provided a stepwise approach on how to navigate eBay and PayPal. He gives excellent essential tips on navigating all aspects of eBay. eBay is quite user-friendly but I did find myself going back to these books to make sure I took advantage of all his advice. Thank you so much for this excellent and most valuable resource!!!!!!!

Excellent tips and information on selling on Ebay. Concise, clear and well reasoned out. Clear examples of what has worked and what hasn't and why. Recommend highly!
