## **Customer Reviews**

I recently broke the glass lid of our 32 year old wedding present slow cooker and hence received a new slow cooker for Christmas. Having the new shiny slow cooker has peeked my interest in slow cooking again. I was therefore greatly pleased to find this book containing 40 low carb slow cooker recipes for chicken. My husband and I being empty nesters all too often resort to the quick trip to the nearest take-out place for dinner. Using this book, I have made the Perfect Parm Chicken Soup. What a delicious meal it made and I loved knowing all day that it would be ready for us to eat when dinner time came around. I didn't have to think about what to make all day. Another time I made the Parisienne Poulet. It was as yummy as it sounds! I added a quick salad and dinner was done! I will be using more of the recipes in my new crock pot, even during the summer months because the slow cooker does not heat up the kitchen, and I'm even busier in the summer than I am during the winter! Even if you are not counting carbs, this book should become your go-to cookbook for healthy and delicious meals!

Well written book and Super-charge your health and create flavourful, nutritive recipes with the following forty slow cooker low carbohydrate outlines. The images really complement the book and the instruction are clear and done in a step by step way and ingredients which can be found from most supermarkets.

I love chicken, eat healthy, and love my slow cooker. I live a very busy lifestyle and my slow cooker is my first go to kitchen appliance. I fell in love with this book immediately! As I sat sniffling and thinking I should eat some kind of chicken soup (I hate chicken noodle!), I found this book and

headed straight for my kitchen! Highly recommend!

I'm always looking for healthyconvenient ways to prepareChicken. So I'm glad I found thisbook. "Low Carb Chicken "is jam packed with healthy,delicious, and creative, recipesyou and your whole familywill love. I really like the Lime CilantroChicken. Thanks!

This cookbook is fine. It's just that I was hoping for simpler recipes as my family tends to be a bit picky. I'm sure there are folks out there that purchased this and love it.

One of the only slow cooker cook books that give detail of each recipes of carbs, cholesterol, etc.
