EBay Shipping Simplified: How To Store, Package, And Ship The Items You Sell On EBay, , And Etsy

Synopsis

from Michael: "...chalk full of really really useful stuff. I felt like, in 1 hour I got all of the tips and tricks the author had learned through his years of experience. This book was filled with things that would have otherwise taken me a lot of trial and error to figure out on my own." Do you want to save time and money on shipping? Shipping is one of the most frustrating areas for online sellers (even if you've been doing this for a while). The good news is: it doesn't have to be. That's what this book is all about. It's a short, easy to understand guide, that will help you get over your shipping phobias and help you to start packaging and shipping your items like a pro. By the time you're done reading this book you'll have a better understanding of:

- 1. How to store items after you post them for sale so they are both easy to find and safe from possible damage.
- 2. What your shipping options are. We'll cover shipping with the United States Postal Service (USPS), Federal Express (Fed Ex), common carriers, and home pickup.
- 3. What services you need to use to comply with your selling venue's rules. Examples of this are delivery confirmation, signature delivery, and miscellaneous tracking options.
- 4. How to use eBay and PayPal shipping solutions to print your labels. We'll discuss other shipping solutions such as Stamps.com and Endica, and why you may want to use them.
- 5. Finally, we'll tackle international shipping. You'll learn what's required from you to sell internationally, how to fill out customs forms, how to set customer delivery expectations, and how to simplify international shipping. You should be able to read this short guide in under an hour, and immediately be able to use the information you learn to ship smarter, quicker, and less expensively.

Customer Reviews

When my husband approached me about selling on ebay I felt very skeptical because of the shipping aspect. Reading this book has helped me realize that while this is a very important and large part of selling it can be manageable as long as you are organized and have a plan.

eBayShipping Simplified is simply the best book on eBay shipping. Nick Vulich, author of the best-selling "eBay 2014" proves once again he is one of the top eBay experts.

Nick Vulich takes the guesswork out of which shipping option is best and provides many valuable resources for first time sellers.

An excellent and easy to follow book! Am about to utilize the applicable info. Short and to the point.

Nick is straightforward, detailed, but not too detailed, gets to the point and writes clearly! Great words of wisdom regarding shipping plus more. Thanks Nick!

Great guide but not quite up to date

This book is more than I expected it to be. I learned so much. In reading I feel more secure, inspired and ready to fully commit to my business.

Great starter book for anyone interested in selling on ebay. Happy with purchase.
